

GXS Trading Grid® Barcode Accelerator

For GXS Intelligent Web Forms

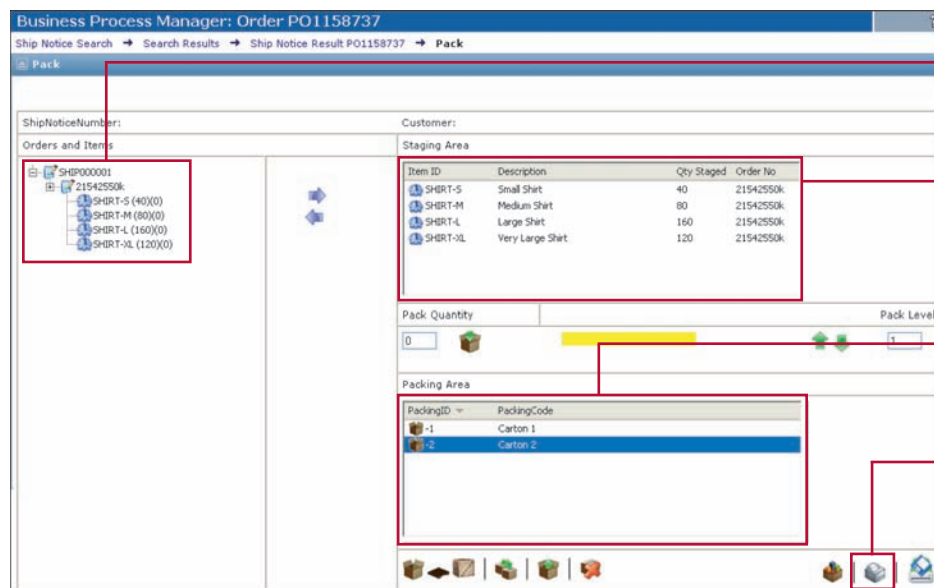

Are your trading partners asking for advance ship notices (ASNs) that include detailed packing information? Do you need to print shipping labels in customer-specified label formats? For many suppliers, staying compliant with customer ASN and shipment labeling requirements is a significant, ongoing challenge. Until now.

Service Overview

GXS Trading Grid Barcode Accelerator enables small and medium-size businesses to effectively manage ASN requirements and create customer-compliant shipping labels. Available to GXS Intelligent Web Form users, Barcode Accelerator is low cost and easy to implement.

Solution Features

Simple Implementation—As a service fully hosted on GXS Trading Grid, Barcode Accelerator never requires software installation. Completing a short registration form enables users to begin using Barcode Accelerator with Intelligent Web Forms.

The screenshot shows the 'Pack' interface for Order PO1158737. It features a tree view on the left for item selection, a 'Staging Area' table in the center, and a 'Packing Area' list at the bottom. The 'Staging Area' table contains the following data:

| Item ID | Description | Qty Staged | Order No |
|---------|------------------|------------|-----------|
| SHRT-S | Small Shirt | 40 | 21542550k |
| SHRT-M | Medium Shirt | 80 | 21542550k |
| SHRT-L | Large Shirt | 160 | 21542550k |
| SHRT-XL | Very Large Shirt | 120 | 21542550k |

The 'Packing Area' list shows two cartons: Carton 1 and Carton 2.

- 1) View items in an order via an intuitive tree structure
- 2) Select and move items to be shipped to the staging area for packing
- 3) Pack items in staging area into cartons, pallets and shipping vessels
- 4) View packing list, print compliant barcode label, packing slip, reports & save information to a file

Order Pick & Pack—Use an intuitive and simple packing interface to convert incoming purchase order data into ship notices; incorporate packing information into the ship notice.

Reports—Barcode Accelerator provides an assortment of reports that can be printed on demand, including pick lists, pack lists and bills of lading.

Solution Benefits

Avoid costly & time-consuming software updates—Unlike desktop software solutions, Barcode Accelerator, which is a service fully hosted on the GXS Trading Grid, will never require you to implement any software updates. Our dedicated personnel are committed to ensuring that labels and reports available through Barcode Accelerator are always up-to-date as per your trading partner requirements.

Avoid non-compliance fees—Each year, suppliers are assessed charge-backs for not complying with trading partner ASN and label requirements. With Barcode Accelerator, you can eliminate costly charge-backs and fees associated with incorrect, incomplete, unreadable or missing shipping labels.

Streamline Order Fulfillment—By utilizing Barcode Accelerator, your warehouse and front-office personnel can produce ASNs and customer-compliant shipping labels on-demand. With Barcode Accelerator, you can avoid the cost and complexity of using third-party providers to pre-print shipping labels and ASNs on your behalf. Planning and coordination are simpler and fewer shipments are delayed.
